

Writing a song is sometimes easier than it sounds. The problem is that there are so many things to keep in mind. These tips and tricks will help you with making your song sound good and help you get it done quickly. It'll also help you get more traffic on YouTube! - A catchy chorus can lead to staying power and fandom for years. Be sure to include one in your song too! - Ensure that your lyrics are ideas about what people relate to: love, happiness, sorrow, anger, peace, death of a loved one etc. - Use the language of the listener; write the lyrics in their second language if they're not native speakers (not "Engrish"). - Get to know your fans by asking questions about them. - By following the writing tips in the book I Am Rick James, you can have your song published in under 6 months. - "Rap, rap!" by Dead Prez is a great song with rapping verses! You can use this type of song if you believe that being rapped in your music will increase sales. "Zip it." You've got a good idea, an interesting topic for a song, but no lyrics? Here are some tips to help you begin writing lyrics that really work for the project you're working on! - Get to know yourself before making much music. This helps you to make the right decisions and helps you to avoid making mistakes. - Find a professional singer or songwriter, if you need help making the things in your instrumentals sound good. - As well as writing your own lyrics, you can also change other people's lyrics by changing the lyrics as much as possible and still retaining the same meaning as before. - Remember that many good songs have been written over years. - You can use other people's lyrics, or you can review your own. - If you want to make money with your song, it's important to make sure that you do not violate copyright laws (not music lyrics) or plagiarize. "Hook, hook, hit it!" Have you heard of the "hook theory"? It could be used for getting listeners hooked on something just like it! So how does this work? Well every song has a different kind of "hook". It will be good if yours is interesting and catchy! Here are some ways to create hooks for your songs. - You can try to change your song's key, or you can play the same notes but in a different way. - Playing around with the pedals of your instrument are some changes that are often overlooked. - Try leaving out the bass line for a little while, but then return it. - It's hard to ignore something that is unfamiliar or unique! - A good melody makes listeners want to hear more music from you! - If you record your song with good equipment, it will make the song sound better. "You know what? You really got me babe!" A hook is an essential part of any song if you want it to be popular.
